

TEAM WENDY® EXFIL® ENDURANCE

The EXFIL® Endurance is purpose-built for military, law enforcement, and special operations personnel who require dependable ballistic protection during extended missions. Designed for demanding operational environments where comfort and endurance are critical, it delivers an ultra-lightweight ballistic solution that helps reduce fatigue and maintain focus throughout long periods of wear.

EXFIL® Endurance addresses a key gap in the product portfolio by combining a lightweight performance advantage with a mechanically fastened but no-thru-hole shell design for uncompromised ballistic performance. Constructed from advanced UHMWPE ballistic materials, the EXFIL® Endurance features the distinctive EXFIL® shell geometry that has become synonymous with the brand and provides optimized integration of mission-essential accessories with universal mil standard rails.

PERFORMANCE STANDARDS

- NIJ III-A/ HG2 (according to NIJ STD 0106/0108.01)
- 17gr V50 ≥ 2400 ft/s (731 m/s)
- 9mm FMJ RN @ 1195 ft/s (365 m/s) BFD < 25.4 mm all locations
- Exceeds ACH Blunt Impact Requirement AR/PD10-02, 16Dec'13

FEATURES

- **CERADYNE™ Ballistic Shell Technology** with a seamless shell construction preserves fiber continuity for uncompromised ballistic performance. No thru-hole design with raised structural bosses enables mechanical rail and shroud attachment without compromising the shell
- The EXFIL® Endurance AIR FIT Liner System is built around Team Wendy's proprietary **ZORBIUM® Foam Liner Technology**, developed through extensive research into traumatic brain injury prevention, delivering industry-leading impact protection, comfort, and breathability
- **CAM FIT® Precision Retention System** is cable supported with a BOA® rear dial and CAM FIT® locks that provide precise one-hand adjustment, delivering exceptional comfort, stability, and all-day wearability
- An exceptionally lightweight helmet featuring an ultra-high-molecular weight polyethylene shell and signature EXFIL® geometry, delivering superior comfort, energy absorption, and protection
- NVG shroud with updated shock cords provides enhanced stability with night vision
- Low-profile shatter-resistant reverse dovetail rail system for broad accessory compatibility

CERADYNE™ BALLISTIC SHELL TECHNOLOGY

- > Rails and shrouds are mechanically fastened, but do not penetrate the ballistic material, maintaining structural integrity and providing a stronger attachment than adhesive-mounted systems
- > Ultra-high molecular weight polyethylene material (UHMWPE)
- > Injection molded polycarbonate edge trim built to last

EXFIL® ENDURANCE AIR FIT LINER SYSTEM WITH ZORBIUM® FOAM LINER TECHNOLOGY

- > Developed through extensive traumatic brain injury research to deliver industry-leading impact protection, exceptional comfort, and enhanced breathability
- > Delivers industry-leading impact protection while maintaining a lightweight profile
- > Integrated air channels, excellent heat dissipation, cooling fabric, and strategically placed cooling pads enhance breathability
- > Customized comfort pads with proprietary water-resistant film and antimicrobial wicking fabric ensures a secure personalized fit
- > Accommodates communication headset integration

CAM FIT® PRECISION RETENTION SYSTEM

- > Provides secure, personalized retention and quick, effortless adjustment with one hand adjustment and secure fit of the BOA® Fit System and CAM FIT® locks.
- > Asymmetric design keeps the buckle tucked smoothly along the jaw line
- > Chin cup comfort lining ensures maximum comfort and chafe-free wear
- > Features boltless installation with high-strength hook/ loop attachment that meets ACH pull strength requirements

WEIGHT

(±5%, LARGE, HIGH-CUT)

The lightest helmet in our ballistic portfolio, featuring a complete system weight that includes the helmet shell, accessory rails, impact liner, and retention system

- > **Size 1:** 1.04 kg (2.29lbs)
- > **Size 2:** 1.08 kg (2.38lbs)

SIZING

(HEAD CIRCUMFERENCE)

- > **Size 1:** 52-60cm (20.5-23.5in)
- > **Size 2:** 58-63cm (23-24.75in)

COLORS

 Black (FED-STD-595C #37031)

 Coyote Brown (FED-STD-595C #20150)

 MultiCam® (Hydrographic)

 Ranger Green (Pantone 7770c)
