

SAR VENT COVERS

INSTALLATION INSTRUCTIONS

helmet accessories —

INNOVATE TO PROTECT

PURPOSE

To prevent objects and debris from entering the crown vents of the helmet.

CONTENTS

- Two (2) Team Wendy® SAR Vent Covers

INSTALLATION

ONE STEP

Snap the vent cover into the vents on the crown of the helmet (figure 1). Repeat on opposite side.

NOTE

The covers are interchangeable and can be installed on either side of the helmet. They are not left/right specific.

FIG 1

TO REMOVE THE COVERS

Remove the vent covers by squeezing them inwards from both ends and then pulling them away from the helmet as shown in figure 2. If necessary, removal can be assisted by inserting a small flat head screwdriver in the slot at the front or back of each cover (figure 3).
